### **DETAILED ACTION**

On November 15, 2007, an Office Action was sent to the Applicant rejecting claims 1-21 and 51-77. On February 14, 2008, the Applicant responded with arguments.

#### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1-21 and 51-77 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jalili (6,088,683) in view of Rogers (7,136,475), as set forth in the previous Office Action.

#### ***Response to Arguments***

Applicant's arguments filed February 14, 2008 have been fully considered but they are not persuasive. The Applicant argues that Rogers does not teach the element of "receiving a telephone call over the telephone network that seeks to initiate a

Art Unit: 3691

transaction with a target". Rogers teaches that the call management system is used to handle business communications (col.1, lines 43-46). In conducting a business communication, the caller is seeking to contact or receive a call from someone whom they wish to conduct business (or a transaction). The user may set VIP rules corresponding to VIPs in which the user wishes to conduct a business transaction (col.2. lines 20-40). Therefore, the Examiner is interpreting Rogers are reading onto the limitation, as claimed.

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lalita M. Hamilton whose telephone number is (571) 272-6743. The examiner can normally be reached on Tuesday-Thursday (6:30-2:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kalinowski Alexander can be reached on (571) 272-6771. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
